

# SKIN SUPPORT

DERMATOSIS & HAIR LOSS

Available in 2 kg and 7 kg.

## RECOMMENDED FOR CASES OF

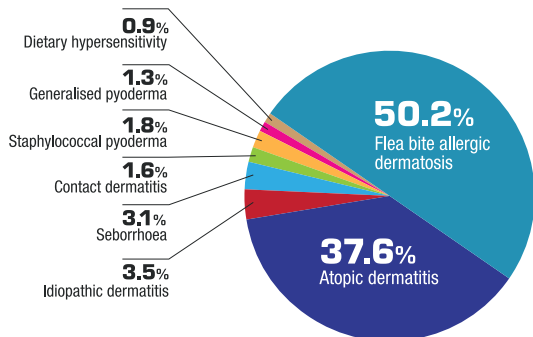

- Canine atopic dermatitis
- Wound healing
- Skin and hair support in case of other dermatitis\* such as:
  - Flea Bite Allergic dermatitis
  - Pyodermitis

*\*in association with antiparasitic/antibiotic treatment*

## NOT RECOMMENDED IN CASE OF

- Gestation/lactation

As the body's largest organ, the skin has many functions (barrier to the environment/water losses), temperature regulation, antimicrobial barrier, immune defence...). It is also subjected to constant attacks (environment, parasites, bacteria, genetic anomalies, etc) which can result in disease.

Skin disorders:  
**>25%**  
of all veterinary  
consultations!

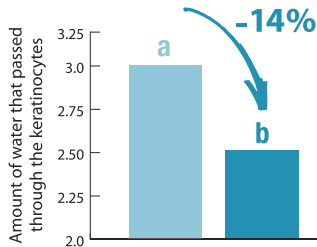

## SKIN SUPPORT

A compile of nutrients to help support the skin's natural defences and support healing.

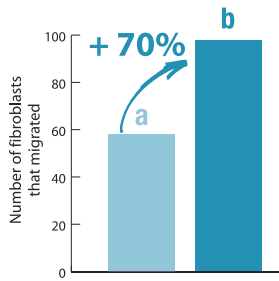

> Patented Skin Support complex (curcumine, aloe vera, vitamin C and taurine). [WO/2002/096221]

- Enhancing the skin's natural defence mechanisms against environmental insults

In-vitro measurement of canine keratinocyte permeability

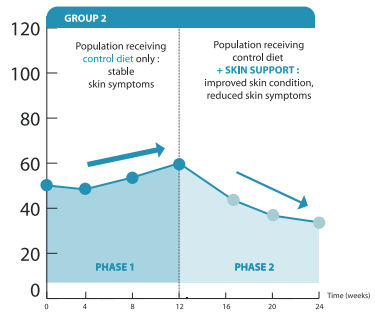

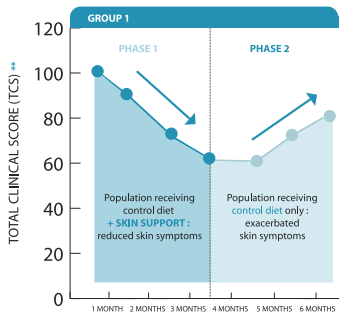

- Promoting skin healing

Migration of canine fibroblasts incubated with and without the Skin Support formula

■ WITHOUT SKIN SUPPORT ■ WITH SKIN SUPPORT

- Improving Clinical Score in atopic dogs\*

\* Dogs were divided into two groups, which were each fed the control diet and the control diet + SKIN SUPPORT complex in alternation.

\*\* TCS: the score integrated 4 criteria (erythema, lichenification, excoriation and alopecia).

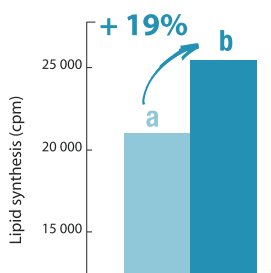

## SKIN BARRIER

Formulated to support the skin's natural protective barrier for optimal skin health.

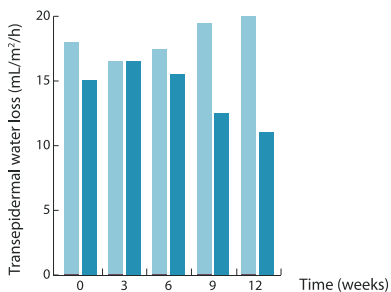

> Patented complex of vitamins and amino-acids (panthotenic acid, inositol, niacin, choline, histidine). [WO/2004/071208 A1]

- Increasing the synthesis of intercellular lipids

■ CONTROL ■ with SKIN BARRIER formula

- Improving the skin's barrier function
- Reducing transepidermal water loss (TEWL)

## EPA/DHA

Fatty acids to help maintain a healthy digestive system and a healthy skin.

Several studies reported that EPA/DHA supplementation improves the clinical score of atopic dogs. The EPA/DHA intake (g/kg/day) provided by feeding the Skin Support diet is above the levels used in these studies.

## ANTIOXYDANT COMPLEX

A synergistic complex of antioxidants to help neutralise free radicals.

> Patented synergistic antioxidant complex (Vitamins E and C, taurine and lutein). [WO 00/44375]

**All these key points make SKIN SUPPORT the perfect diet to help you support dogs suffering from skin conditions.**

## SKIN SUPPORT

### KEY VALUES

	Per 1000 kcal	Per 100g as fed
Protein	62.9 g	23 g
Fat content	41 g	15 g
Carbohydrate	112.1 g	41 g
Crude fibre	9.3 g	3.4 g
Dietary fibre	19.4 g	7.1 g
Calcium	3.3 g	1.2 g
Phosphorus	2.7 g	0.99 g
Potassium	2.2 g	0.8 g
Sodium	1.1 g	0.4 g
Chloride	2.2 g	0.82 g
Magnesium	0.2 g	0.09 g
Copper	4.1 mg	1.5 mg
Zinc	46.5 mg	17 mg
Taurine	0.5 g	0.18 g
Vitamin A	8472.3 IU	3100 IU
Vitamin E	164 mg	60 mg
Omega 6	9.2 g	3.35 g
Omega 3	3.3 g	1.2 g
EPA + DHA	1.6 g	0.6 g
Metabolisable energy**		366 kcal/100 g

\*\*Calculated according to NRC2006.
